### **DETAILED ACTION**

1. This application has been examined. Claims 1-15 are pending.

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, and 5-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Hinkley. Note the "...device (10) for restricting gravity flow through a down spout..." including a housing 100, a garden hose 200 connector 21, an adjustable valve 22 connected a roof gutter 300.

#### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 3753

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

6. Claims 2, and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hinkley in view of Jelmeland. Hinkley discloses the claimed invention except for the sprays as taught by 24 and 26 of Jelmeland. It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the "down spout device" of Hinkley to include "spray jets", as taught by Jelmeland in order to provide more effective removal of any potential "bushfire" debris from the gutter and/or downspout.
